A woman doesn't like flattery but she greets frankness with an approving smile.

We heartily endorse President Roosevelt's policy. We have no hesitancy in saying that his policy in complimenting Southern children shows that he has a good eye.

Senator Bailey demands that all corrupt trust magnates should be sent to jail. Have the picayune thieves already in jail no rights that are bound to be respected?

A candidate has to have a pretty clean record these times if he is going to risk himself in a "rantangle" for office. Men with politicial ambitions should keep clean skirts.

The cigars made for the Rothschilds cost $1.50 each. We are not going to say what our flagrant punkeritos cost but by paying $1.48 to boot we could smoke one of those Rothschilds' cigars.

"It is impossible for them to get anything more out of the policyholders," says an exchange referring to the insurance companies. Sh! they might dig 'em up and get the gold out of their teeth after the funeral.

The Supreme Court of the United States has decided that the stockholder of a national bank has a right to inspect the books. Huh! Bank people have no objection to a stockholder's finding out just as much about the books as the bank examiners.

Some papers insist that President Roosevelt's trip to the South was to get the South on his side. The Southerners were glad to see him because they thought when he saw things himself as they are down here they could get the President on their side. Which side will get fooled?

—Southport Herald: "The two steamers, Atlantic and Hudson, arrived from the North last week and are now engaged in fishing for menhaden in our waters for the Cape Fear Fisheries Company at Old Brunswick. Since their arrival the fish have been found in abundance and present prospects indicate that this will be the most prosperous season for the company since their establishment in our waters."

FELL FROM A TRAIN.

Young Stranger Giving Name McCartney Injured Near Burgaw, N. C.

An unknown young white man who gave his name as J. P. McCartney, fell from the northbound train out of Wilmington, near Burgaw, early last night and suffered a fracture of the skull, which may result in his death. Inasmuch as papers in his pocket indicated that he was a plumber, it was thought by persons at Burgaw that the injured man was a member of the family of Mr. J. C. McCartney, the plumber of this city, but upon inquiry over long distance 'phone, those in charge of the young man learned that he was not of the same family at all. Although he boarded the train at Wilmington when it left the staion at 6:50 last night, it is believed that the young man was a stranger here and that, perhaps, he was beating his way on the train when he fell. However, particulars could not be learned. McCartney has dark hair and is dressed very well. There will doubtless be further developments in the case today. The name J. P. McCartney does not appear in the city directory and nothing could be learned of him last night.

FUNERAL OF MRS. MUNSON.

Remains Tenderly Laid to Rest in Oakdale Cemetery.

The funeral of the late Mrs. Louise P. Munson was impressively conducted from the family residence, on Walnut street, yesterday afternoon by the Rev. J. M. Wells, D. D., pastor of the First Presbyterian church, assisted by the Rev. A. D. McClure, D. D., pastor of Saint Andrew's. A large number of friends and relatives were present and the floral tributes were many and very pretty. Mr. John B. Munson, of New York, and Mr. Banks, of Georgia, a son and brother, respectively, of Mrs. Munson arrived during the day and attended the services. The remains were tenderly laid to rest in Oakdale cemetery, the pall-bearers having been Messrs. W. M. Cumming, M. S. Willard, J. C. Munds, Walker Taylor, Wm. H. Sprunt, Jas. H. Chadbourn, M. W. Divine and Dr. Geo. G. Thomas.

THE FEDERAL COURT

Two Postoffice Robbers Sentenced to Long Terms in Atlanta Penitentiary

NUMBER "RETAILERS" TRIED

Order On Circuit Court Docket—Cases of Interest Set for Trial This Morning—After Defaulting Witnesses in Fayetteville.

The cases of chief interest in the Federal Court yesterday were those of Jack Melvin, a colored youth of Bladen county, charged with systematic robbery of small amounts from the Clarkton postoffice, and Jim McLeod, colored, of Robeson county, charged with breaking into and robbing the postoffice at Old Hundred, N. C., and also having in his possession, contrary to law, a government mail pouch key. Both defendants submitted. Melvin was given five years at hard labor in the Atlanta prison and McLeod was given seven years in the same institution.

Both cases came up upon reports of Postoffice Inspector S. H. Buck. The young negro Melvin was arrested on July 25th, after he had been taken in hand by the State authorities and placed in jail at Elizabethtown. The lobby of the postoffice at Clarkton is left open and Melvin was in the habit of going there at night and early in the morning, reaching through the general delivery window and robbing the cash drawer underneath. His capture was effected by means of marked coins left in the drawer by Postmaster S. Meares and by establishing a watch in the office. The case was sent over by U. S. Commissioner R. S. White, of Elizabethtown.

McLeod was the negro captured at Maxton on Sept. 11th by U. S. Commissioner B. F. McLean, whose attention was directed to him because of an offer of $3.50 in pennies for $2.50 to a colored restaurant keeper in Maxton. A search warrant was obtained and the government key was found in his possession; also some coin subsequently identified by Postmaster Jno. W. Woodard. The clothes he wore were also identified as a part of those stolen from the store which was broken open and in which the postoffice was located. He implicated with him in the robbery a negro named John Baker, who has not yet been captured. McLeod may also be held on the further charge of breaking into the postoffice at Spring Hill, Halifax county, which was entered a short while before the robbery at Old Hundred. The key found on his person was traced from the records to the Spring Hill postoffice. That case is in the hands of Inspector Reddy, of the Raleigh district, and will be developed later. McLeod claimed to be employed to travel over the State and engage labor for the "Independent railroad," running out of Marion, S. C.

Other cases tried yesteday were as follows: Tom Melvin, Robeson county, retailing and distilling, verdict not guilty. Hugh Parks, Robeson, retailing; judgment suspended. Robert Parks, Robeson, retailing; judgment suspended. Luke Watts, Columbus, verdict guilty, six months in jail, $100 fine and costs. Shepherd Wright, Cumberland, retailing and distilling, verdict guilty, one year and one day in Atlanta prison, $100 fine and costs. L. N. Sasser, Columbus, pleaded guilty to retailing, 60 days in jail, $100 fine and costs. Tom Watts, colored, retailing, verdict guilty; not yet sentenced. Link Williams, Cumberland, retailing and distilling, verdict guilty; not yet sentenced. The verdict in the two last named cases were returned after court had taken a recess at 4:50 P. M. until 9:30 o'clock this morning. Witnesses, however, are required to be present at 9 o'clock.

In the matter of L. F. Swain against C. R. Johnson, W. A. West, J. F. Nobles and the West Lumber Company, it was ordered, on motion of ex-Judge James E. Shepherd, that the action be dismissed, it appearing that this court has no jurisdiction in that there is no such diversity of citizenship as is required by statute. It is further adjudged that the defendants recover from the plaintiff the cost of the action.

The first case in court this morning will be that of Judge McNeill, colored, charged with abstracting a letter from the Clarkton postoffice, the letter containing a check from Mr. H. Bowden, of this city, to Webster Rogers, colored, who was sick at the time, McNeill being employed to nurse him. Another case for trial to-day is that of three defendants from Hope Mills, N. C., charged with fraudulent pension affidavit. Messrs. Hall and Green, special agents of the Pension Department, are here in connection with the case.

The Fayetteville Observer of yesterday afternoon says: "Deputy United States Marshal Colvin, came up yesterday from Wilmington, where he is in attendance on the Federal Court, and will return this afternoon, with several defaulting witnesses in custody, including Henry Parker and George Hodges."

Dr. Guthrie's Promotion.

The Southport Herald of yesterday says: "The many friends of Dr. Marshall C. Guthrie, son of our townsman, Mr. M. C. Guthrie, will learn with pleasure his return here to assume the responsibilities of doctor of the Marine Hospital at this port. Dr. Guthrie will relieve Dr. B. S. Warren, who will go on a leave of absence to his home in Colorado. Since Dr. Guthrie left our city some months ago he has been promoted to assistant surgeon of the P. H. and M. S. Service and has been in charge of a section of the town in New Orleans during the yellow fever epidemic at that place."

THE SEMINOLE BACK IN PORT

Revenue Cuter Back From Exacting Duties in Yellow Fever Quarantine District—The Official Staff.

The United States Revenue Cutter Seminole, Capt. J. H. Quinan, which has been on quarantine duty since August 8th in the Gulf of Mexico, returned to her station here yesterday morning. Her last station in the yellow fever district was at Fort Morgan, which guards the entrance to Mobile bay, and she left there last Friday. From Key West, Fla., she cleared Monday afternoon at 3 o'clock and reached Southport at 11 o'clock Wednesday night. The trip was without incident and the officers and men expressed delight at getting back home again. The cutter rendered splendid service to the government during the yellow fever epidemic further South and naturally it entailed much hardship and strict vigilance upon the part of the officers and men. The cutter will now remain in port until she goes out for her regular Winter cruising. Capt. J. H. Quinan, the new commander, joined the ship at Gulfport early in October. The only other change in the staff of officers is the addition of Chief Engineer McCuthin. Both Capt. Quinan and "Chief" McCuthin are cordially welcomed to Wilmington.

TO ADVERTISE BAD DEBTS.

Scheme of Collection Being Considered by Merchants' Association.

The Merchants' Association held its regular monthly meeting at the offices of Louis Goodman, Esq., secretary, Wednesday afternoon at 3:30 o'clock, President W. B. Cooper in the chair.

Among other matters before the meeting, the advisibility of a better system of collecting old debts and bad accounts was gone fully into. The following is gathered from an interview with Mr. Louis Goodman, secretary and attorney for the Association, who said of the new scheme:

"Yes, we propose to make people pay their honest debts; we do not propose to persecute anybody, but we do say that if a man is able to pay his debts, he ought to be made to pay even if he is not morally persuaded to do so.

"Many merchants of this city, members of the Association have innumerable accounts on their books which under the present system of collection are uncollectible. This is due not so much to inability to pay, but largely to indifference on the part of the debtor. The merchants are invoking mutual protection so that not only every merchant may become a member of the Association and thereby reap the benefits of its scheme, but to make the scheme perfect by making it work universally and uniformly."

Mr. Goodman declined to give details of the scheme saying that the whole mater would be made public in a few days.

It is inside information, however, that it is the plan of the Association to advertise the accounts of those debtors who refuse to pay, in the newspapers, to be sold at auction. This is entirely within the law and is calculated to have a salubrious effact. As Mr. Goodman expressed it, "You see, suppose we advertised accounts for sale; don't you think that most people would prefer to pay up than to have their names in the papers advertised for their refusal to pay a small debt?" But this is merely conjecture on the part of the reporter and cannot be fully confirmed as a positive fact until the mater is wholly published within a few days.

BASKET BALL TO-NIGHT.

Three Games In League Series Arranged—The Players.

The lovers of basket ball will regret to learn that because of the sudden departure of Mr. J. J. Loughlin from the city on important business the basket ball team from the Boys' Brigade, will not be able to keep its engagement in their game with the Y. M. C. A. team to-night. It is hoped that this will be but a temporary inability. Owing to this fact the schedule will be changed for the present and to-night the teams of H. Woolcott and the young men will play. Both these teams are fast and in good condition and a good game will surely result. The intermediate schedule will continue as arranged and the Juniors will play at the Armory against the Brigade Juniors and the Triangles will play the A. C. L. team at the Association.

The games will begin at 8:30 sharp. The admission will be ten cents. The line up will be as follows:

Crackerjacks—H. Woolcott, T. L. Cromartie, Geo. Sweeney, J. T. King and Herbert Boney.

Midgets—R. P. Houston, Roger Schulken, F. M. Bryant, E. O. Hunter and E. T. Hancock.

A. C. L.—Lacy King, Bryant Newkirk, B. A. Theis and W. VonGlahn.

Triangles—J. U. King, H. Kendall, B. H. Houston, Jr., W. L. King and E. T. Irving.

Boy's Brigade—Chas. Hall, Harry Bell, Cicero Gore, Frank Brittain and Clarence Davis.

Y. M. C. A. Juniors—F. Duls, Joe Brinkley, Louis Orrell, Adrian Rhodes and Lloyd Allen.

Charlotte Man After Royal Arcanum in Protest Against Advance in Rates

MEETING HERE LAST NIGHT

Litigation in Tennessee and in Boston—Council Here Will Appeal For Withdrawal of Suspension and Reinstatement.

At a special called meeting of Cornelius Harnett Council No. 231, Royal Arcanum, last night, the recent peremptory suspension of the council with its 170-odd members and policy holders by the Supreme Regent, was discussed at some length and those present, eschewing the delay and inexpediency of the courts, determined to make an appeal to the Supreme Council for a withdrawal of the suspension and a reinstatement of the branch of the order here. An appeal to this effect has been drawn and will be forwarded to the Supreme Regent in a few days.

The Royal Arcanum complications became still more complicated yesterday when the collectors and treasurers respectively of the two Wilmington councils were served with attachments of all funds in their hands belonging to the order as the result of an action brought in the Superior Court at Charlotte by Judge Armistead Burwell. The treasurers and collectors of the local councils are restrained from paying out or otherwise disposing of any funds in their hands until the hearing of the suit brought in Mecklenburg court by Judge Burwell against the Supreme Council and out of which came the attachment. It is presumed that similar attachments were served all over the State where there are Royal Arcanum councils.

The attachments were received here on the noon train yesterday from Charlotte and were immediately served by Sheriff Stedman by leaving a copy with Mr. J. Weil, collector, and Dr. S. Mendelsohn, treasurer, of Cornelius Harnett Council, and Mr. M. F. Allen, collector, and Mr. R. G. Rankin, Jr., treasurer, of Carolina Council. The attachments are returnable at Mecklenburg Superior Court on the fourth Monday in the present month. Inasmuch as Cornelius Harnett Council was suspended from the order by the Supreme Regent under date of October 27th, as noted at length yesterday in these columns, it is expressed as an opinion that the attachment upon the funds of that council will not hold good in law. The officers of Carolina Council, however, are in a quondary as to what action to take and communicated by telegraph with the State Regent yesterday. It is understood that orders were given to forward all the papers to the Supreme Secretary at his office in Boston, Mass.

The Charlotte plaintiffs in the action have taken the mater of the recent increase in rates into the courts, claiming that the Supreme Council had no right to take the sweeping action that it did. It is expected that the litigation in this State will assume large proportions.

Litigation Elsewhere.

In this connection the following Associated Press telegrams, received last night, will be read with interest:

Boston, Mass., Nov. 2.—Attorney Gentral Parker, of Massachusetts, has been asked to petiion the Supreme Court for an injunction restraining the Supreme Council of the Royal Arcanum from enforcing the assessment rates adopted at the convention at Atlantic City.

The question was brought before the Massachusetts officials because the Royal Arcanum was organized in this State in 1877. The petitioning members contend that the action of the Supreme Council, in adopting the new rates was unreasonable, unnecessary, inequitable, unjust and illegal.

In Sunny Tennessee.

Nashville, Tenn., Nov. 2.—The injunction issued to prevent the Supreme Council of the Royal Arcanum from putting into effect the rates adopted at the Atlantic City meeting, was denied by Federal Judge Clark to-day and the bill of the complainants dismissed. The court held that it was not sufficiently clear, under the law of Massachusetts, in which State the order was incorporated; that this plan of assessment and the effect on members impairs the obligation of the contract, and until it did so appear, obviously this court should not interfere. The injunction was asked for by members of the Nashville Councils of the Royal Arcanum.

A SURPRISE WEDDING.

Miss Elizabeth Canady Attractive Bride of Mr. J. E. Ewing.

In the presence of only a few very intimate friends, Miss Elizabeth Canady, the attractive young daughter of Mr. J. T. Canady, and Mr. J. Everett Ewing, city editor of the Wilmington Evening Dispatch, were married last night at the parsonage of Saint Andrew's Presbyterian church, the Rev. Alexander D. McClure, D. D., the pastor officiating. The announcement of the marriage will come as quite a pleasant surprise to many friends in the city and elsewhere, the young people having kept their own counsel as to the happy event in their lives. The bride is much loved and admired in a wide circle of friends and the groom, a Northerner by birth, has identified himself with the South, and is held in the highest esteem by all his acquaintances. Mr. and Mrs. Ewing will be at home at the residence of Mrs. Thompson, on Ninth street, between Market and Dock.

"THE PLAYER MAID."

Miss Florence Davis at Academy Matinee and Night To-morrow.

Judging by press notices Wilmington will have an important theatrical event Saturday in the appearance at the Academy of Miss Florence Davis in "The Player Maid." Two performances will be given, matinee and night, and seats for the evening presentation will be placed on sale this morning. There will be no advance in prices.

The Raleigh Evening Times pays the following tribute to the play and players:

"Miss Florence Davis, the petit little Southern actress, who is making a name for herself in the 'Player Maid,' was here last evening in the leading role of that delightful comedy. This is Miss Davis' second visit to Raleigh, and at each presentation she has captured her audience, by reason of her demure loveliness and clever acting.

"Miss Davis has a part that is perfectly suited to her. In the play she becomes the real Mistress Hallam, the dainty little actress from the historic Drury Lane Theatre, of London, who goes on the mad prank of impersonating a lady of rank, and falls in love against her will. Throughout the comedy there is an under current of pathos, the telling of the story of a virtuous woman combating the prejudices engendered in the minds of men against 'player folk,' the creatures of Garrick, and Drury Lane. In such roles as Mistress Hallam, Miss Davis will soon come to her own, and will be recognized by all as one worthy to be called a star.

"Miss Davis has a good supporting company, which gives her every opportunity to demonstrate her powers. The scenery is appropriate, and gives the proper color to the acted story.

"Miss Davis is to be congratulated in securing a play that brings out her especial powers and to have selected a company of clever artists to support her. Miss Davis will always find an appreciative audience in Raleigh.

HAS WIRELESS ABOARD.

Standard Oil Steamer Maverick With Barge Arrived Up Yesterday.

The Standard Oil steamer Maverick, 1,118 tons, Capt. Reed, previously reported off the bar, arrived up yesterday morning, towing Standard Oil Barge No. 91 with a supply of products for the local depot of the company in this city. The Maverick is regularly on the run from Port Arthur, in the Texas oil fields, to New York, and is one of the best ships of its class in the Standard Oil fleet. She has on board a complete Marconi wireless telegraph outfit and is able to communicate at any time with any of the several stations up and down the Atlantic seaboard. The wireless instrument is in charge of Mr. Benjamin Martin, of Atlanta, an expert operator, who communicated yesterday with the wireless station at Hatteras while the steamer was lying at the Standard Oil wharves up the river. Mr. Martin was a pleasant caller last evening at the local offices of the Western Union and while there took occasion to renew his friendship and acquaintance with Mr. J. T. Runge, of the Associated Press, whom he has known for several years. Mr. Martin is a clever operator and his position on the Maverick is an important and exacting one. The steamer will probably proceed to-day to ports south of here.

SOME STATE STATISTICS.

At Raleigh a few days ago Mr. M. L. Shipman, assistant Labor Commissioner, gave out an interesting summary of certain statistics that are worth considering. We do not take them in the order in which they were compiled, but we place first the condition of education and finance in the various counties of North Carolina. The following is the summary:

"Ten counties report the educational conditions good; thirty-four, fair; forty-eight, poor, and five, bad; ninety-three report improvement; five, no improvement. Forty-one counties report moral conditions good; forty-seven, fair; eight poor and one bad. Ninety-two report improvement; five no improvement.

"Eighty-two counties favor compulsory education; fifteen are opposed to it.

"Thirty-four counties report financial conditions good; forty, fair; nineteen, poor, and four, bad; eighty-eight report improvement; nine report no improvement."

We take it that the reports as to finances indicate only the financial condition of the county government, and the observation might be made that there is room for improvement both as to education and the business conduct of the counties. However, there seems to be "improvement."

The following summaries on agricultural conditions and cost of living get next to the people.

"Sixty-six counties produce cotton at $30.63 per bale of 500 pounds; twenty-one do not report. Eighty-three counties produce wheat at a cost of 74 cents per bushel; fourteen counties do not report wheat. Ninety-seven counties produce corn at 49 cents per bushel. Ninety-three produce oats at 33 cents per bushel; four counties do not report oats. Sixty-five counties produce tobacco at $7.41 per 100 pounds. The information at hand indicates a substantial profit on wheat, corn, cotton, oats and tobacco."

"Ninety-five counties report an increase in cost of living; two report no increase. Highest average wages paid men, $19.84, an increase of ninety-eight cents per month over last year; lowest paid men $12.19, an increase of $$1.12. Highest average wages paid women, $12.42, an average of eighty-eight cents per month increase over last year; lowest wages for women, $8.28, an average of $2.12 over last year. Average wages of children, $7.45, an increase of $1.95 over last year."

The report shows that the average cost of producing cotton is about 6 cents a pound, but with land producing only a half bale per acre, even a profit of 4 cents a pound on cotton is not such great remuneration. It shows that large cotton farms probably pay better than small ones, as farmers have to work over a great deal of ground to make a thousand dollars clear of expenses each year.

The following shows improvement in land values, but poor labor conditions:

"An increase in the value of land in ninety counties; decrease in one; no change in six. Fertility of land is reported as having been maintained in eighty-two counties; fifteen counties report that it is not. Eight counties report a tendency to have larger farms; eighty-nine, smaller. Ninety-seven counties report labor scarce; in fifty-four employment is regular and in forty-three, irregular. One county reports negro labor reliable; ninety-five, unreliable, and one, 'no negro labor.' Every county reports labor scarce, and complains of a tendency of the colored population to congregate in the towns seeking easy employment."

There is such universal complaint about labor conditions that it really appears to be a serious problem.

BLACKBURN TO BE RECKONED WITH.

It was presumed that the establishment af an able Republican daily paper in North Carolina meant that the Republicans had hope of making North Carolina Republican by enlightening the people to the real beauties of Republicanism, of which they have surely had enough of the kind which has heretofore been on tap in the Old North State. It may be the object of the newspaper promoters to build up a North Carolina Republican party, but if we read the signs aright they will have opopsition in their own ranks. For instance, Mr. Thomas J. Pence, Washington correspondent of the Raleigh Post, sent this from the national capital under date of October 31st:

"Representative Blackburn, who has been maintaining a noticeable silence of late, promises to be very much in the lime-light after Congress convenes five weeks hence, and according to one of his political friends who was here today there will be more things doing inside the Republican organization in the State after the representative from the eighth goes in harness here than for a long, long time. A lot of the office-holding element is going ahead framing up a slate for the big offices,' said this Tar Heel Republican, 'and they do not seem to take into consideration the fact that there is anybody in the State worth consulting outside their immediate circle. When Congress meets they are going to wake up to the fact that North Carolina Republicans have a representative in Congress. This crowd has got to do business with Representative Blackburn, and it won't be long before this fact becomes apparent to all the State. The idea of side tracking the only Republican elected to an important office in North Carolina with one little old appointment is not going to be accomplished as easily as it has been planned. There is such a thing as a square deal."

Here we have it. It appears from the above that Congressman Blackburn does not look on it so much as a fight all along the line for party building as it is as to who shall control Federal patronage in North Carolina. It is to be presumed that if there is to be harmony in the Republican ranks, "the only Republican Congressman from North Carolina" will have to be given a fair division of the pie—that is be allowed to dispense the pie in such a manner as to take care of Blackburn at least. The newspaper promoters may have the good of the party at heart but certainly the Congressman has his eye on the Federal patronage end of the proposition.

Verily it looks like the contentions over Republican leadership in North Carolina will help the Democratic party. Might as well "let well enough alone."

TWINKLINGS.

—Mrs. Grumpy—I think if the papers were censored a little more strictly some homes would be happier. Grumpy—Yes, they ought to cut out a lot of this fashion stuff.—Illustrated Bits.

—"Why don't you tell the voters what you can do for them?" "That's the campaign orator's business," answered Senator Sorghum. "I'm busy figuring on what the voters can do for me."—Washington Star.

—"Doesn't it make you nervous to be in the road when an automobile comes along at breakneck speed? "Yes," answered the suburban dweller. "But I'd rather be in the road than in the machine."—Washington Star.

—Miss Elderleigh—Would you believe it, my dear—I listened to six declarations of love at the dance last night. Miss Speight—How interesting! You must have been sitting behind some awfully pretty girl!—Cleveland Leader.

—"Hello, old man!" exclaimed Bull, at the Literary Club reception. "I tell you, it's a delightful surprise to see you here." "So good of you to say so," replied Brown. "Yes; you see I was afraid I wouldn't find anybody but bright and cultured people here."—Philadelphia Press.

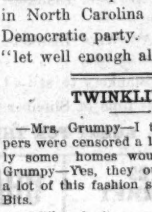
—"My dear, I notice a bright thing here that is credited to Julian Hawthorne. He says that very little that is really worth remembering is said or thought after midnight." "Well, what of it?" "I—I thought you might like to bear it in mind, my dear."—Cleveland Plain Dealer.

—"Do you think," she asked, "that there are any girl angels in heaven?" "I haven't given the matter much thought," he replied, "but I know of one girl angel who isn't there." "Oh, Tom," she cried when she could again use her mouth for speaking purposes, "you don't think I said it just to lead you up to it, do you?"—Chicago Herald.

—An amateur authoress who had submitted a story to a magazine waited for several weeks without hearing from the editor concerning it. Finally she sent him a note requesting an early decision, because, as she said, she "had other irons in the fire." Shortly after came the editor's reply: 'Dear Madam—I have read your story, and I should advise you to put it with the other irons.—Harper's Weekly.

UNSEEN DANGER IS ON OUR TRACK

From the time of our birth till we lie down for the last time.



The best defense from the dangers of disease is vigor of body and activity of the natural functions.

The kind of assistance is important. It must not be stimulation for that gives but temporary effect, and the reaction is more than depressing. *Take a tonic*—one that will re-establish normal digestion and assimilation and prove a reconstructive rather than a promoter of waste. This will *give nature a fair chance* to put in motion normal work of repair and tissue building.

Such a *tonic* was grown in Nature's Laboratory, hidden in the ground and brought thence forty years ago by Dr. R. V. Pierce, who has made the treatment of lingering diseases his life-long study and care.

He uses glycerlc extracts instead of alcoholic ones, exactly proportioned and combined by processes of his own invention, first used in his private practice and now given out freely to the world in his "Golden Medical Discovery," which is composed of Golden Seal root, Queen's root, Stone root, Black Cherry bark, Bloodroot and Mandrake root.

Mrs. A. T. Jones, of 928 Hayes Street, San Francisco, Cal., writes: "As a child I was delicate, and great care was taken of me because some of my relatives had died of consumption, although my father and mother were healthy. I grew up with only the ordinary diseases of all children, but about two years ago I contracted a severe cold, which would not yield to such home-treatment as was handy. Doctors were tried, but after three months of this treatment I was only worse. Then I was advised to try Dr. Pierce's Golden Medical Discovery, and am glad to say that three bottles not only cured me of the cold and cough, but made me feel better than I ever had before. I will always have a bottle of this medicine in the house."

Pierce's Pleasant Pellets. These tiny, sugar-coated antibilious granules regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor. Put up in vials; always fresh and reliable.

CURRENT COMMENT.

—A people so genial as the people of the South cannot resist a genial nature. Beyond all doubt, the President's tour will result in a strengthening of the tie that binds him to that part of the country—New York Mail.

—Nobody knows quite how the election is going, or how many votes any candidate is to receive. But it is as plain as noonday that a vote for Mayor McClellan is the only vote that will help to beat back the Hearst rising.—New York Times.

—A correspondent wants to know why the United States should insist on the open doon in China and "oppose the proposed Anglo-Cuban treaty?" Oh, that's different—that' all. We've got Cuba right alongside of us where we can look after her quite safely and easily, which same is not true with reference to China. Hence, q. e. d.—Chattanooga Times.

—During his week's stay in the South President Roosevelt should have become an even better Democrat than he was before. Mr. Bryan has complimented the President by saying that Mr. Roosevelt's views upon certain public questions approximate those of the Democrats. Contact with his new Southern friends should have made the work complete.—Savannah News.

—Southerners who read his speeches must be impressed, we should think, by the many problems they bring up that are broadly American without a suggestion of sectionalism. They must divide as Americans elsewhere divide on such a question, for example, as that of rate regulation, and those who favor a bill like the Esch-Townsend bill should see that the President is the most efficient leader they are likely to get.—Chicago Record-Herald.

—We are both astonished and grieved by Mr. Elihu Root's persistent silence in respect of railway-rate legislation. Of course we understand that the new Secretary of State is very busy at this time. There was a vast amount of malodorous garbage to be shoveled out and turned over to the slopman before he could even take his fingers from his nose. Then, we still have to consider ways and means of making Asia and South American buy our goods, whether they want them or not. And generally, Mr. Root has a whole lot of business, chiefly of the reconstruction kind, upon his hands. But surely, in such a case as this, the Secretary might spare five minutes to enlighten and reassure an anxious country.—Washington Post.

THE COTTON MARKETS.

New York, Nov. 2.—The cotton market ruled moderately active but fluctuations were comparatively narrow and the close was at a net loss of 5 to 7 points. Sales were estimated at 300,000 bales. The opening was steady at a decline of 1 to 2 points in response to lower cables and rather more favorable weather reports than expected, frost appearing at only a couple of points on the early map accompanied by temperatures too high to argue material damage. There was a renewal of the Southern buying noted yesterday at the decline and for the first few minutes the market ruled firm with January selling up to 10.83 or about 4 points net higher. Liverpool continued easy, however, Europe sent selling orders here and at considerable pressure in the way of realizing on long accounts, the market during the middle-session sagged off to about 10.74 for January or 5 points net lower. In the late session business was very quiet and fluctuations were irregular but the close was within a point or two of the lowest under continued pressure of long account. It was reported that leading short interests were buying through commission houses while Liverpool and German bull interests were believed to have sold through brokers. Southern spot markets were unchanged to 1-8c higher.

Receipts at the ports today were 52,445 bales against 47,104 last week and 49,465 last year; for the week (estimated) 340,000 bales against 293,913 last week and 440,929 last year. Today's receipts at New Orleans were 9,403 bales, against 15,879 last year, and at Houston 13,055 bales against 17,265 last year.

Spot closed quiet, 5 points higher; middling uplands, 10.95; middling gulf 11.20; sales 500 bales.

VINOL'S RELIABILITY

Prominent Physicians Join Our Local Druggist, Robert R. Bellamy, in Praising This Meritorious Preparation.

Countless physicians and druggists are now prescribing and endorsing Vinol as the most valuable cod liver oil preparation known to medicine, and it is fast superseding all other forms of cod liver oil and emulsions.

This is because Vinol is guaranteed to contain in a highly concentrated form all of the medical, curative elements of cod liver oil, actually taken from fresh cods' livers, but without a drop of the useless, system-clogging oil to upset the stomach and retard its work.

Vinol is not a patent medicine, as everything in it is named on the label, and it can be seen that it is absolutely free from drugs and all injurious ingredients.

A prominent physician writes, "I believe Vinol to be the most valuable cod liver oil preparation, the best body-builder, health restorer, and strength creator known to medicine to-day, and I should be very sorry to have to do without Vinol in my practice."

Our local druggist, Mr. Robert R. Bellamy, says, "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure. In the strongest manner we endorse and guarantee Vinol to create strength for old people, weak, sickly women and children, and after severe sickness, and to cure hacking coughs, chronic colds, all throat and bronchial troubles, or return money if it fails." Robert R. Bellamy, druggist.

GRAND INSTITUTION

Words from Man Who Neglected His Business, Home and Loved Ones

KEELEY SAVED HIM FINALLY

Confirmed Drinker for More Than Twenty-five Years—Despair was Turned Into Joy—No More Thirst for Liquor.

The Keeley Institute, Greensboro, N. C.:

It affords me great pleasure indeed to say a few words in praise of your grand Institution. It is, in my opinion, one of the greatest blessings rum-cursed humanity has ever had bestowed on it, and I think my own experience will bear me out in this assertion. I took my first drink when I was about twelve years of age and kept it up for over twenty-five years, gradually growing worse until I became a confirmed drunkard. I would neglect my business, my home, and my loved ones in my effort to get whiskey, and became so bad and degraded that my friends despaired of my ever becoming a man again, and expected I would soon fill a drunkard's grave. Finally, as a last resort, I was persuaded to try your treatment, and in January, 1903, I entered your Institution to be treated for the whiskey habit. I staid there four weeks, and the results were beyond my wildest hopes. I left there a new man, entirely cured, and my thirst for whiskey totally destroyed. It has now been about two years since I graduated from the Keeley Institute at Greensboro, N. C., and to-day I have no more thirst for liquor than the day I left Greensboro, cured, I feel that what it has done for me is beyond expression. My one regret is that all who are afflicted cannot take this treatment.

T. R. HOOKS.

Freemont, N. C., Dec. 7, 1904.

THE DRY GOODS MARKET.

New York, Nov. 2.—The fact that the buyers were not anxious to operate for the future did not affect the dry goods market today which was stronger than of late. Sellers were independent as there was little in hand to sell.

TO CURE ANY DISEASE.

The Cause Must be Removed, Same Way With Dandruff.

Kill the germ that causes dandruff, ailing hair and baldness, you will have no more dandruff, and your hair must grow luxuriantly. Newbro's Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destoying the dandruff germs. It stops all irritation, keeps the scalp sweet, pure and wholesome. Remember that something claimed to be "just as good," will not do the work of genuine Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Son Lost Mother.

"Consumption runs in our family, and through it I lost my Mother," writes E. B. Reid, of Harmony, Me. "For the past five years, however, on the slightest sign of a Cough or Cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung troubles." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must [illegible]ted, and how to cure it. [illegible]f and cure for coughs [illegible] Price 50c. and $1.00; g[illegible] R. R. Bellamy's drug st[illegible]e free. **

[illegible]ableness

is often [illegible] woman's. But Thos. S. Austin, [illegible] of the "Republican," of Leavenwort, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife, for female troubles, "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick, she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her houshold duties." Guaranteed by R. R. Bellamy druggist, price 50c. **

A Disastrous Calamity.

It is a disastrous calamity, when you lose your health, because indigestion and constipation have sapped it away. Prompt relief can be had in Dr. King's New Life Pills. They build up your digestive organs, and cure headache, dizziness, colic, constipation, etc. Guaranteed at R. R. Bellamy's drug store; 25 cents. **

SPIRITS TURPENTINE.

—A dispatch from Asheboro on Wednesday says: Causey Brown, of Grant township, became entangled in a belt at Humble mills to-day and was killed. While his family had gone to the scene, his home in some way caught fire and was destroyed.

—At High Point Tuesday night, burglars entered the store of the Peoples' House Furnishing Company through a rear window and prized open a safe, but secured very little. If any money. Various articles were scattered around but it is not thought the midnight prowlers secured much booty.

—A dispatch from Neubern on Wednesday says: Three freight cars were derailed at Croatan, on the Atlantic & North Carolina road this evening. Henry Wise, colored, receiving serious injuries. The wreck delayed the westbound passenger train on which Governor Glenn was a passenger. The Governor had been to Beaufort to make an address at the dedication of St. Paul's school building. The train reached here two hours late, the passengers and baggage having to be transferred.

—An interesting case was tried before Justice Hugh Humphrey at Goldsboro Wednesday afternoon. Mr. H. F. Barnes, of Rocky Mount, had Messrs. T. S. Hinnant and W. S. Wilson arrested on a warrant sworn out by him charging the defendants with obtaining whiskey from him by fraudulent means. At the trial Barnes, who came here from Rocky Mount, accompanied by his witnesses Messrs. P. C. Vestal and Officer Carter, was drunk and, becoming incensed at something Mr. W. T. Dortch, the opposing counsel, had said, drew a chair and threatened to hit Mr. Dortch. but was restrained by several who were present. After hearing all the evidence, the justice released the defendants and immediately sentenced Barnes to jail for 60 days, whereupon Mr. Dortch interceded for him, saying he did not care to see him placed in jail, for he was irresponsible. After a good lecture from the justice he was allowed to go.

—Charlotte Charlotte, Nov. 1st. The committee which is to visit New York city this month to examine the copy of The Cape Fear Mercury on June 3, 1775, now in the possession of Dr. S. Millington Miller. is composed of Prof. Alexander Graham, Mr. R. O. Alexander and Dr. George W. Graham. As is well known the purpose of the trip is to pass upon the genuineness of that much talked of paper and if found to be authentic, to negotiate for its purchase. It is worthy of note that public opinion has altered considerably during the past several months as to the verity of the paper. Most people now believe that it is genuine and these maintain that the result of the committee's visit will be a complete vindication of Dr. Miller and that their finding will be in accord with his claims. The exact date of the committee's visit has not yet been fixed upon, but will be likely during the latter part of this month.

—Charlotte Observer: The business of cutting quartered oak and other hardwoods into veneering has just been successfully introduced into the South. Heretofore these hardwood veneers have been cut in the Northwest. Those who have done this business have invented and built their own machines and refused to sell them, but have used them as a sort of a monopoly. Therefore those who thought of cutting veneering in the South encountered two difficulties; (1). They could not get a machine and (2) they were not sure the North Carolina oaks and other hardwood would make veneering. The Kidcaid Veneer & Lumber Company, of Salisbury, looked into the subject and made up their minds that the native timber was all right. Having come to this the one difficulty was the Mr. J. J. Kinciard visited of machine shops, examining les and the character of or- in different shops. He his mind that the shops of the best equipment and the anization of machine designbuilders to undertake to build a machine. The order was given and the machine was built. It is now at work in Salisbury and is turning out as good veneer as can be made anywhere. This is another move forward in the South, both in the matter of working wood and in machine building.

H. W. Bragg, merchant and furniture manufacturer, of Second and Market streets, residing at 114 North Sixth street, says: "I used Doan's Kidney Pills and they proved to be a grand medicine, and I can also say that I suffered with my back for a long time. When I sat at my desk for a while and attempted to get up I would have to catch hold of the chair for support and straighten myself up gradually. The kidney secretions were dark colored and full of sediment. I read about Doan's Kidney Pills in our papers and went to R. R. Bellamy's drug store and got a box. Since using them my back is strong and I can move about and stand up as straight as ever and the kidney secretions have all cleared up. You may use my name as an endorser of the claims made for Doan's Kidney Pills and also Doan's Ointment which I used with good results."

UNRAVELLING FATE OF SUSAN GEARY

Two Men Arrested In New York—One Threw Body Overboard for $100.

By Wire to The Morning Star.

New York, Nov. 2.—Two men are under arrest at police headquarters in this city charged with homicide in connection with the dress suit case mystery in Boston. One of the men, William Howard, is said to have confessed that he and his fellow prisoner, Louis Crawford, alias Albert H. Emory, were the ones who took the body from a hospital on Tremont street, Boston, and threw the dismembered portions, which were concealed in dress suit cases and a hand satchel into Winthrop (Mass.) harbor. Howard denies that he knows anything about the cutting up of the body, while Crawford refused to say a word. Chief Inspector Watts, of Boston, is on his way here with witnesses who say they saw the men throw the body from ferry boats.

In the arrest of the two men here to-day, the police declared that the solution of the dress suit mystery will be reached and that the person primarily responsible for the death of Susanna Geary, the chorus girl of the "Shepherd King" Company, soon will be in the hands of the police.

William Howard, who has an alias of Hunt, is 36 years old, and says he is an engineer by occupation. Albert H. Emory, alias Crawford, is a theatrical agent. Howard, as soon as he was placed under arrest, the police say, freely told the complete story of the disposition of the body, but absolutely denies that he knows who performed the operation upon the chorus girl which brought about her death or who dismembered the body. He was hired to help Crawford, he swears, to dispose of the body, and this is all he had to do with the case, although he admits that he knew the girl had died under suspicious circumstances and that the body had been cut up.

Howard and Crawford were arrested to-night. As soon as the men were taken to police headquarters Howard broke down and made the alleged confession. According to the prisoner's sworn statement, as related by the police, he has known Crawford for more than three years. Crawford has been employed at various time by patent medicine concerns throughout the United States, but for some time has been engaged in managing what the police say is a lying-in hospital conducted by his mother-in-law, Dr. Jane Bishop, on Tremont street, Boston.

On the morning of September 19th, last, two days before the dismembered body of Susanna Geary was found, Howard called at Dr. Bishop's place to see Crawford. Howard said he needed money badly at the time and when Crawford suggested that he was in a position to get him a good fee, he quickly jumped at the chance.

"Now I've got a chance to let you make a good piece of money," Crawford is alleged to have said to Howard, "only you want to be mighty careful and keep your mouth shut. One of our patients is dead and we have to get rid of the body. We've got to get rid of it by all means, and without delay."

Then he went on to tell Howard, according to the confession, that a girl had died from the effects of an operation. He explained what was required to remove the remains to some spot where they would not be discovered for some time.

"How much is there in it?" Howard says he asked.

"One hundred dollars," answered Crawford, and immediately Howard says they closed the deal. They made an appointment to meet at the hospital on the following morning. Howard entered the reception room the next day and Crawford kept Howard there until 9 o'clock when Crawford handed Howard a small hand satchel the latter says, while Crawford himself carried a dress suit case. Howard was told what was in the bag and the satchel, but was assured that no suspicion would be attracted to them. Then they started for the East Boston ferry, and on the way Crawford explained that they would throw the body into the harbor at the first opportunity.

They succeeded in dropping the satchel which contained the girl's head and the suit case over board from a ferry unobserved. Then they returned and got another suit case, which was also dropped from a ferry. Howard was paid $90, Crawford witholding $10.

YELLOW FEVER SITUATION.

Three Cases at Pensacola and One at New Orleans.

By Wire to The Morning Star

New Orleans, Nov. 2.—The following is the official summary of the yellow fever record at New Orleans up to 6 P. M. today:

New cases today, 1; total cases to date, 3,397.

Deaths to-day, none; total deaths to date, 448.

Cases under treatment, 17.

Cases discharged, 2,932.

Pensacola, Fla., Nov. 2.—The fever situation tonight shows encouraging conditions. The day resulted in the development of only three cases and no deaths. Dr. Fowler Thames, a dentist of Alabama, however, is likely to die before morning.

The summary:

New cases today, 3; total cases to date, 552.

Deaths, none; total deaths to date, 78.

Discharged, 436.

Under treatment, 39.

The U. S. cruiser Columbia from Norfolk, Va., October 28, with Secretary Taft and his party on board, arrived in Colon yesterday. Shortly after landing Secretary Taft left for Panama, and arrived there at noon. He was received at the station by a special government commission. In company with Governor Magoon the Secretary paid a visit to President Amador and his cabinet.

RUSSIAN CITIES RUN WITH BLOOD

Horrible Atrocities in Odessa and Other Cities Throughout the Empire

JEWS MASSACRED IN ODESSA

List of Killed or Wounded Estimated at 5,000—Cartloads of Dead and Wounded Hauled from Streets. Cruel Cossacks.

By Wire to The Morning Star.

London, Nov. 2.—7.06 P. M.—A dispatch to the Evening Standard from Odessa timed 2:30 P. M. to-day says:

The city rings with the reports of rifles and revolvers and occasionally a volley is fired. Every house and tenement is bolted and barred. The infantry partols are doing their duty perfunctorialy, declining to fire on the mobs unless they themselves are attacked. The Cossacks are said to have lost over a hundred men by bombs and shots from windows. Cossack patrols carry carbines and have their fingers on the triggers. The streets are absolutely unsafe for civilians.

The casualties yesterday are believde to have amounted to 5,000 killed and wounded. In the Jewish quarters bodies still strew the streets and sidewalks. Jewish women and children were strangled and hacked to pieces in the streets where the mobs gained the upperhand.

A Red Cross tells me that the Kischeneff horrors are repeated a hundredfold. The students alone saved the city from wholesale sack and massacre. The military are now placing a hundred machine guns at various points. Twenty-six carts full of wounded have just passed my door.

General Kaulbars was called to the balcony of the palace this morning by five thousand loyalists carrying imperial portraits and ikons and singing the National hymn. The General earnestly entreated the assemblage to disperse and go home, but with ringing cheers the loyalists resumed marching through the city.

The sound of firing is again moving westward towards the Jewish quarter. The mobs swear they will not leave a single Jew alive.

Martial Law Declared.

London, Nov. 2.—A dispatch to a news agency from Odessa says that martial law was declared there this afternoon. The whole garrison has turned out throughout the city. The police has been re-established. All citizens are forbidden to leave their houses after 9 o'clock in the evening at which hour all lights must be out. Maxim guns have been placed in positions commanding a hundred streets. Under these conditions the dispatch says a repetition of the fearful scenes is practically impossible. The peace-loving people are overjoyed at the prospect of witnessing the restoration of order and the comparative security of life and property. The military has now adopted drastic measures to force the disorderly mobs to return to their homes.

Horrible Atrocities on Jews at Vyaza.

Vyaza, Russia, Nov. 2.—During the celebration yesterday of the granting of a constitution to Russia, a Jewish service was held to the memory of those who died in the cause of freedom. Singing the Marseillais, the demonstrators marched to the prison and compelled the release of a few political prisoners. As the processionists were returning through the public square they were set upon by a mob with shouts of "Kill the Jews." A free fight and a panic followed. The mob then hurried to the Jewish quarter, sacked the shops and broke into the residences, destroying everything and committing horrible atrocities. As there were only a few troops in the town the authorities were powerless. The rioting continued all night long, and is still in progress as this dispatch is filed.

Six Killed at Sebastopol.

Sebastopol, Russia, Nov. 2.—Six persons were killed and sixty were wounded during the rioting yesterday. All the banks, schools and stores are closed and the houses throughout the city are boarded up.

The Black sea squadron with Vice Aimiral Biroleff's pennant flying arrived here today from the Turkish coast.

Cruelty of Cossacks.

Odessa, Nov. 2.—5 P. M.—The troops wrecked terrible vengeance on the residents of three houses from balconies off which shots were fired by unknown persons upon the soldiers. The latter immediately stormed the houses and with unheard of barbarity massacred all the inhabitants. It is persistently asserted that the unknown persons who fired on the troops were disguised policemen who purposely provoked the troops.

The city is a dismal sight. The streets are filled with Cossacks patrols and flying detachments of the Red Cross which follow the bands of murderous rioters. The firing has been uninterrupted the whole day and still continues as this dispatch is filed. Many hundreds have been killed or wounded.

The Cossacks eagerly attack the student militia which is courageously trying to stem the bands who are massacreing and pillaging principally in the Jewish quarter. The looters openly divided the goods, the Cossacks in many cases participating in the proceeds of the robberies.

The rector of the university has sent a telegram to Count Witte imploring him to immediately dismiss Governor Reinhardt who is held responsible for the outbreak, as otherwise a catastrophe is unavoidable. Count Witte's answer has not yet been received.

The city is in a dreadful state of panic. Even the telegraph offices were closed most of the day for the first time since they opened.

Poland For Revolution.

Warsaw, Russian Poland, Nov. 2.—Noon.—It now appears that thirty persons were killed and over a hundred were wounded during conflicts here last night.

Instead of the expected abolition of martial law today the military governor had the walls covered with proclamations announcing that inconsequence of yesterday's disturbances crowds assembling in the streets will be dispersed by force of arms.

Infantry fired on a crowd of demonstrators at 3 o'clock this afternoon. Two persons were killed and seven were wounded. Many fights took place in various parts of the city. The socilists are attacking the patriotic processions.

Despite the governor's proclamation immense patriotic processions gathered in various parts of the city during the afternoon and paraded the streets, headed by Catholic priests carrying crosses and church and national flags.

The social democrats this afternoon issued a proclamation calling for a revolution. Polish flags were displayed from many balconies and a mass meeting of all politcal parties assembled at Philarmonic Hall to discuss the situation, while the immense crowds surrounding the building sang patriotic songs and shouted patriotic cries until they were hoarse.

There was fighting during the course of the day at several points, the infantry firing and the cavalry charging thec rowds. Three persons were killed and 42 wounded. Swords and butts of rifles were freely employed in the dispersal of demonstrators.

Day of Funerals In Minsk.

Minsk, Russia, Nov. 2.—Doctors of the Jewish hospital worked all night long on the wounded brought in from the railroad station "here the troops fired volleys at the demonstrators, killing many and wounding great numbers. Funerals are of half hourly occurrence, the bodies being conveyed in wagons.

Fooling the People.

St. Petersburg, Nov. 2.—12:10 P. M.—The imperial decree creating the cabinet ministers under the imperial manifesto granting a constitution to Russia, was gazetted this morning and has already aroused criticism as the machinery is extremely complicated and smacks of the old fashioned bureaucratic regime. The imperial douma or popular chamber are not clear because the powers of these bodies are especially unsatisfactory. While the cabinet has no authority to decide matters within competency of the legislative bodies, no measure of "general importance" can be introduced into the chambers without the sanction of the cabinet, and another provision requires that when the cabinet is not unanimous the premier must go to the Emperor and receive instructions. This would seem to make the final authority go back to the Emperor. Moreover all questions affecting the imperial court and domains, the army and navy and foreign affairs are specifically excluded from the competency of the cabinet without direct imperial authority. By implication these great questions in which the nation is vitally interested are also outside the competency of the legislature and therefore, are bound to prove unsatisfactory to the representatives of the people when they assemble.

Improved at St. Petersburg.

Washington, Nov. 2.—The State Department tonight received a dispatch from the American embassy at St. Petersburg stating that the conditions in Finland continue bad but that the situation in St. Petersburg appeared improving and that the strike probably will be settled tomorrow. The dispatch spoke of a hopeful outlook for the restoration of communication between St. Petersburg and the outside world. The message was taken to the White House by Assistant Secretary of State Bacon and laid before the President. Mr. Bacon remained with the President for some time.

Fred H. Koehn, of Elkport, Iowa, was killed yesterday at Tishobee, Ala., by a negro from whom he was trying to collect a small debt. There were no eye witnesses to the crime and the negro made his escape.

RAILWAY RATE MAKING, GOVERNMENT OWNERSHIP

Democratic Nominee For Vice President Opposes President Roosevelt's Policy.

By Wire to the Morning Star.

Elkins, W. Va., Nov. 2.—The first annual banquet of the board of trade was held at the Randolph Hotel to-night, with former Senator Henry G. Davis as the principal speaker. Senator Davis' address was on railroads. After speaking of the great vlue of railroads in developing the resources of the country, Mr. Davis said:

"Considering how largely railroads enter into the affairs of every citizen, there is but little cause for complaint in their management. Rates on the whole are reasonable, much less than in other countries, and, with regard to freight, bear a fair proportion of the value of the commodity transported. What dissatisfaction exists is principally with the trunk lines on account of discrimination against individual enterprse, localties and lateral roads. There has been a good deal of discussion lately on the subject of rate-making and railroad ownership by the government. One seems to be a step toward the other.

"Should the government undertake to regulate the revenue of railroads, the power to do which is denied by many of the best legal minds of the country, it would practically be one set of people managing the property of another, and discourage the further building of roads. The ownership of railroads by the government would be detrimental to the interest of the whole people. It would stifle competition and retard the development of the country which is so dependent upon the activity of private capital. It would also create a great political machine of over a million workers to be used by the party in power."

Roosevelt Stands Pat.

Washington, Nov. 2.—The question of railroad rate legislation was considered at length at the White House today at a conference between the President and Senators Cullom, of Illinois, and Dolliver, of Iowa, two of the men expected to lead the administration's fight in the approaching session of the Congress. The President in the conference to-day outlined the measure he desired to have Congress enact, but neither of his conferees would discuss this beyond saying that in the President's expressions, there are no particular modifications of the ideas that he has already put before the public. The chief feature of these is that the Inter-State Commerce Commission should be clothed with powers to revise railroad rates when found to be unreasonable. It is understood that the President is committed to no measure so far as the phraseology of the desired legislation is concerned, but he made it clear that he will continue his determined fight for the issues he has repeatedly and publicly advocated.

INTERESTING DAMAGE SUIT.

Verdict of $10,000 Against Seaboard Air Line For Engineer's Death.

(Special Star Telegram.)

Raleigh, N. C., Nov. 2.—At 11 o'clock tonight the jury in the case of Mary Stewart, administratrix of S. T. Stewart vs. the Seaboard Air Line returned a verdict of $10,000 damages for killing Engineer S. T. Stewart in a collision, near Southern Pines, two years ago. This was the second trial, the first having resulted in a non-suit by the trial judge. The plaintiff appealed and secured a new trial on the ground that the case should have gone to the jury to pass on the question of contributory negligence on the part of the Seaboard. The cotnention of the railroad is that Stweart disregarded orders and ran his engine past the meeting place for the train ahead of him.

On the other hand the plaintiff contended even if this was the case, there was contributory negligence in that the road was not using system and should have had a conductor and flagman with the engineer, who was running the engine light from Raleigh to Hamlet. The Seaboard will appeal from this verdict.

PRINCE LOUIS' WARM WELCOME

American Navy Making It Interesting for British Admiral at Annapolis

OUR NAVAL CADETS PARADE

Prince Closely Scrutinizes Each Midshipman and Complimented Brigade — President and King Toasted at Brilliant Dinner.

By Wire to The Morning Star.

Annapolis, Md., Nov. 2.—"The President," "The King." Good clinked with a ring of good fellowship as their healths were drunk by their faithful officers standing at the dinner of Admiral Evans, on board the Mayflower tonight, to Admiral Prince Louis and the officers of his squadron. His highness proposed the health of President Roosevelt and Admiral Evans the health of King Edward.

The dinner tonight was the concluding feature of the second day of Prince Louis' visit to America. The official programme of entertainment did not begin until afternoon. The morning was given over to an informal exchange of visits between the commanding and junior officers of the several squadrons. Perfect weather prevailed and the sea was smooth. The spectacular feature of the day was the review of the brigade of the midshipment on the parade ground this afternoon followed by dress parade. Then came the reception of Admiral Sands for the British and American officers, a brilliant affair, after which the Prince returned to his flagship to shift into evening dress for Admiral Evans' dinner. His highness found time between the dress parades and the reception to return the call of the Mayor of Annapolis who called on board the Drake yesterday afternoon to offer the Admiral-Prince the freedom of Maryland's capital.

A special review of the midshipmen is always a sight alone worth the trip to Annapolis. The beautiful parade ground is covered with a carpet of green, the center of a quadrangle, three sides of which are formed by the officers quarters and the fourth by the Severn river. But this afternoon was a gala occasion.

There was an inner quadrangle this afternoon the like of which was never seen before in Annapolis. Shoulder to shoulder around three sides of the parade ground, three and four deep, stood British and American officers, looking out across the deep blue water of the Severn river toward their common home on the bounding main, Anglo-Saxons all, all brothers of the sea.

Down the whole length of the parade ground stretched the brigade of midshipmen nine hundred strong, with ranks open for inspection. Rear Admiral Sands, superintendent of the Naval Academy, Prince Louis and Rear Admiral Brownson, whom admiral Sands recently succeeded as superintendent, accompanied by the officers of their personal staff, awaited at the reviewing stand the formation of the brigade. When the commandant of midshipmen announced to the superintendent that the [illegible] ready for inspection, the party, led by Admiral [illegible] Prince Louis, left the re[illegible] and amidst strains of [illegible] proceeded to the right [illegible] passing along the front [illegible] Prince Louis, it was [illegible]ly scrutinized each midshipman as he passed along the lines. It was a novel sight for his highness, in whose navy midshipmen receive the greater part of their training at sea.

As the reviewing party returned to the reviewing stand his highness was frank in his expressions of congratulation to Admiral Sands over the excellent appearance and bearing of the future American commanders.

Following the review came the drill, which the Admiral-Prince witnessed with evident interest. At the close of the drill the admiral and his personal staff drove to the residence of the Mayor, whom his highness thanked for the freedom of the city, jocularly remarking that he hoped it would not be abused by any of his squadron. Prince Louis returned to the residence of Admiral Sands and for over an hour received with the superintendent and Mrs. Sands.

Thirty-two guests gathered around the great oval table in the spacious cabin of the Mayflower tonight at Admiral Evan's dinner. The Prince sat at the admiral's right. Throughout the dinner Prince Louis was engaged in spirited conversation with the officers near him. He was especially interested in discussing with Admiral Brownson the relative similarities and differences of the American and British cruisers and in comparing notes on the cruise of Admiral Brownson's squadron from New Orleans to Annapolis and that of his own from Halifax here.

To-morrow Prince Louis, accompanied by his staff of the commanding officers of his squadron will leave for Washington on board a special train for a three days visit.

GIVE THANKS AND PRAY

President Roosevelt Issues Thanksgiving Day Proclamation—Live Lives of Cleanliness and Honor.

By Wire to The Morning Star.

Washington, Nov. 2.—The President to-day issued his proclamation naming Thursday, November 30th next, as a day for Thanksgiving. The proclamation follows:

By the President of the United States of America.

A PROCLAMATION.

When nearly three centuries ago the first settlers came to the country which has now become this great republic, they fronted not only hardship, but terrible risk to their lives. In those grim years the custom grew of setting apart one day in each year for a special service of thanksgiving to the Almighty for preserving the people through the changing seasons. The custom has now become national and hallowed by immemorial usage. We live in easier and more plentiful times than our forefathers, the men who with rugged strength faced the rugged days; and yet the dangers to national life are quite as great now as at any previous time in our history. It is eminently fitting that once a year our people should set apart a day for praise and thanksgiving to the giver of good, and, at the same time, that they express their thankfulness for the abundant mercies received, should manfully acknowledge their shortcomings and pledge themselves solemnly and in good faith to strive to overcome them. During the past year we have been blessed with bountiful crops. Our business prosperity has been great. No other people has ever stood on as high a level in material well-being as ours now stands. We are not threatened by foes from without. The foes from whom we should pray to be delivered are our own passions, appetites, and follies; and against these there is always need that we should war.

Therefore, I now set apart Thursday, the 30th day of this November, as a day of thanksgiving for the past and of prayer for the future, and on that day I ask that throughout the land the people gather in their homes and places of worship, and in rendering thanks unto the Most High for the manfold blessings of the past year, consecrate themselves to a life of cleanliness, honor and wisdom, so that this nation may do its allotted work on the earth in a manner worthy of those who founded it and of those who preserved it.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be fixed.

Done at the city of Washington this second day of November in the year of our Lord, one thousand, nine hundred and five, and of the Independence of the United States, the one one hundred and thirtieth.

(Signed)

THEODORE ROOSEVELT.

By the President.

ELIHU ROOT, Sec'y to State.

DELIGHTFUL CHURCH RECEPTION

Christian Endeavor Society of St. Andrew's Church Entertains.

The Christian Endeavor Society of Saint Andrew's Presbyterian Church delightfully entertained last night at a reception given in the lecture room from 8 to 10:30 o'clock. The interior of the rooms was prettily decorated for the occasion with evergreens and chrysanthemums and a large number of young people enjoyed a most delightful evening.

A programme of splendid music was rendered during the evening those favoring the audience with selections having been Miss Mary Campbell, Miss Meta Smith, Miss Isabelle McDougall, Miss Mary Belle King, Miss Madge McDougald, Mrs. Fairchild, soloist, accompanied by Miss Britt, and others. Misses Smith and McDougald delighted their hearers with two readings. A handsome Stieff piano with pianola atachment, kindly placed at the disposal of the young people by Mr. W. Scott Decker, of the Stieff Music House, added no little to the success of the occasion.

Dainty refreshments were served as as fitting climax to the evenings pleasures.

WOMAN AERONAUT KILLED.

Tangled in Ropes, Fell 300 Feet from Balloon.

By Wire to the Morning Star.

Columbia, S. C., November 2.—A special to The State from Anderson, S. C., says:

Mrs. Maude Broadwick, wife of Chas. Broadwick, an aeronaut with a carnival company, fell from a balloon here this afternoon and was instantly killed. Mrs. Boardwick was an experienced balloonist herself and had made two ascensions while here, but was not to go up this afternoon. Her husband was to make the ascension and parachute drop and she was standing by to give the signal to cut the ropes when all was ready. She gave the signal all right and when the balloon shot up into the air she was hanging to the ropes between the balloon and the parachute. After she had reached a distance of 200 or 300 feet, she dropped to the earth, striking on the hard ground and was instantly killed. The balloon went straight up into the air and she fell within a few feet of the spot from where she started. A crowd of possibly 1,000 persons witnessed the tragedy. Boardwick, who was fastened into the parachute with a belt, went on some distance higher and then cut loose and descended in safety. Most of the carnival people are inclined to the opinion that Mrs. Boardwick's death was suicide rather than an accident. They say Boardwick and his wife had been quarreling for a week or more, and this, together with the fact that she was an experienced aeronaut, and there was no projecting ropes about the balloon harness liable to entagle a person, lead them to the suicide theory. Boardwick admits that he and his wife had quarreled, but says they had made up, as they had done before. He says that she knew all about balloons, and that he does not see how she could have become entagled in the ropes. He says that as she fell, she called to him to catch her, but that he could not do so. He thinks it was an accident and not suicide.

SUES DISTRICT OF COLUMBIA.

Former Wilmingtonian Claims $10,000 Damage for Child's Death.

A special from Washington, D. C., has the following item:

"Charles H. Potter, of Wilmington, N. C., administrator of the estate of Fannie Potter, three years old, whose death it is alleged was caused by fire November 19 last, has sued Lyman F. Ellie and the District of Columbia to recover $10,000 as damages. Mr. Potter explains that on the date mentioned, while playing in an alley, Fannie Potter's clothes caught fire from a pile of rubbish which was burning about two feet from the gate of the plaintiff. He further alleges it was the duty of the district authorities to keep the alley in a safe condition as a playground for children. Messrs. R. H. McNeill and W. E. Nattress are counsel for the plaintiff."

Mr. Potter is an employe of the government printing office and is a brother-in-law of Health Officer E. W. Hewlett, of this city. The Wilmington friends of Mr. and Mrs. Potter will remember the tragedy spoken of in the dispatch.
